Powell Group of Companies

**One Source
One Call
One Responsibility**

Powell

Group of Companies

OUR TURNKEY STRATEGY

We are pleased to present the **Powell Group of Companies** to address market needs; that span from Traffic Management solutions, Roadside Safety requirements, Foundation solutions and more. Our core principles are to support your leadership role. Optimally our goal is to enable your team to gain efficiencies and focus on your core competencies to gain an edge in today's demanding marketplace. Additionally, we understand you have choices in the market and this is the catalyst for the Powell Group to set the pace for expertise, reliability, trust and needs fulfillment so that we remain your first choice.

Powell's approach to today's market demands is a dynamic synergy from its portfolio of companies; providing a "Turnkey Strategy" in a market that needs to minimize risk. Collectively our partner companies bring 130 years of expertise to the construction industry, our goal is to tailor a seamless solution for your needs, with **ONE SOURCE, ONE CALL** and **ONE RESPONSIBILITY**.

This leading edge strategy addresses:

- Cost Containment
- Scheduling and Coordination
- Core Competency Focus
- Minimal Risk
- Seamless Operation

Ultimately contributing to a successful project!

PROJECT MANAGEMENT

Management team provides control, coordination for a comprehensive solution with a one source, one call, one responsibility approach.

TRAFFIC LOGISTICS

Meet with GC to review and fine tune requirements. Site visit to capture all road conditions.

TRAFFIC PLANS

Safe Roads Engineering utilizes software to develop traffic plans that conform to Book 7. Capabilities also include Stamped Engineered Drawing.

PRE CONSTRUCTION MOBILE TRAFFIC

Providing a mobile traffic service for all your pre construction work, such as utility repositioning, tree removal...

Specialty High Friction Bike Lanes or Bus Lanes

TRAFFIC STAGING

Trained traffic crews set up/maintain complete work zones, including traffic delineation, installation of signs, pavement marking according to traffic plans and MTO Book 7.

PAVEMENT MARKING/REMOVAL

Extensive pavement marking strategy (water base, durable solutions). Extensive pavement marking/removal (grinding, water blasting, soda blasting).

Barrier • Fencing • TC54 • Signage • Arrow Boards • Temporary Mobile Traffic Lights • Crash Trucks
Travel Time Warning Systems • Traffic Calming Systems • Mobile Barriers • Flagging Services • Traffic Crews

T: (905) 900-0010 F: (905) 900-0011
www.pgctrffic.ca

The Mobile Barrier Trailer is an integrated, rigid wall, trailer that is used to provide mobile, improved, safety and work environments for personnel at applicable maintenance, construction and security sites.

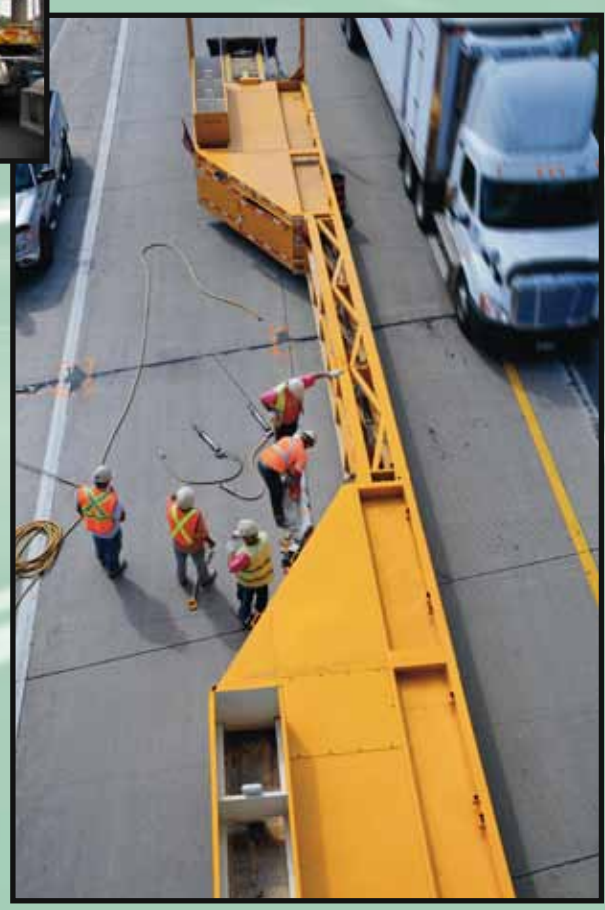

The trailer is specifically designed to reduce work zone incursions by passing traffic (fore, aft and side protection), to reduce the number of collateral vehicles and equipment needed at and within the work zone, and to improve lighting and ambient conditions thus improving general conditions and alertness on site.

BENEFITS:

- Minimal Set up
- Minimal Disruption to Traffic Flow
- Enhanced Safety
- Time Effective Operation

FEATURES:

- Rigid Wall 13 m to 31 m expansion
- Equipped with Attenuator, Arrow Board, Flood Lights, Fence, Portable Power, Portable Air Compressor, Portable Welder
